Date	Procedure designation	Materials & products	Quantities	Duration time (hours . minutes)	Technician (student)	Observations comments
9 Oct 2017	<p>Choosing the object for the work in this semester.</p> <p>Removing the extra part of the dowel that was used to assemble two pieces of wood.</p>	Hammer, chisel.		30 minutes	Oana Adriana Zalischi	
23 Oct 2017	<p>Reconstruction of a small part of the iconostasis by gluing the pieces.</p> <p>For the process of gluing we used PVA. We applied the PVA on the both pieces and we put together and then we pressed them with clamps</p> <p>But this is not enough to keep the pieces together so we used the dowels.</p>	Hammer, PVA, brush, camera, dowel, drill		2 hours	Oana Adriana Zalischi	
30 Oct 2017	<p>We cut the extra part of the dowels and we started to fix and to manage another pieces. But this time the little parts of the iconostases that are in the top.</p>	Hammer, PVA, brush, Camera, drill, saw.		1 hour	Oana Adriana Zalischi	

6 Nov 2017	Removing the extra glue and started to figure out how we will fix the other pieces. Because the wood changed the form and we cannot put in the same position. We decided to cut a little bit the pieces.	Scalpel		1 hour	Oana Adriana Zalischi	
13 Nov 2017	Gluing the piece that we cut in the last class and also the dowels. For the dowels we create other holes.	Dowels, hammer, PVA, brush, camera, drill, clamps		2 hours	Oana Adriana Zalischi	
20 Nov 2017						
27 Nov 2017	Presentation about insects, fungi, bacteria and different process of killing them.			1 hour	Oana Adriana Zalischi	
4 Dec 2017	Gluing new wood pieces that have the same characteristics with the original wood. The wood it was applied in the same way with the anterior pieces.	Dowels, hammer, PVA, clamps, brush.		1 hour and a half	Oana Adriana Zalischi	

11 Dec 2017	<p>Cut the extra parts of the new pieces. Trying to cut the new piece of wood we discovered a tear in the original wood. Therefore, we made holes for another dowels to consolidate the wood. We applied the glue (PVA) in the surface of the wood and then we put the dowels with the glue.</p>	Dowels, PVA, brush.		1 hour and a half	Oana Adriana Zalischi	
18 Dec 2017	<p>Removing the surplus of the dowels and talking about the next steps of the restoration.</p>	Saw		30 min	Oana Adriana Zalischi
